Stewardship

Stewards Love

"For God so loved the world that He gave His only Son..." JOHN 3:16

Is your love conditional? Is there a price others have to pay to receive your love and forgiveness? Are you generous with your time, skills, money and possessions? If you give someone something, do you expect something in return? Do you give your time freely or do you "fit it in" when it's convenient for you? God desires a personal relationship with us so much that He gave us His Son, unconditionally! Pray in stewardship for a grateful and generous heart.

Care for Creation

Creation Care Corner

"The earth will not continue to offer its harvest, except with faithful stewardship."

—Pope John Paul II

Protect Pollinators.

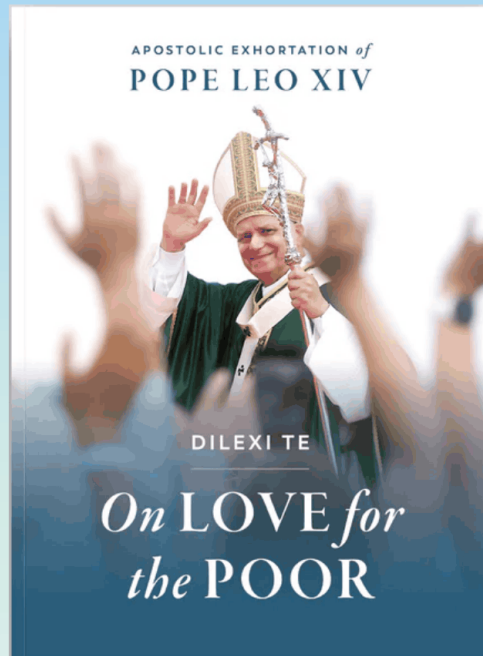

Bees, butterflies, and other key pollinators are necessary for most of our major food crops. Honey bees pollinate 80 percent of all flowering plants alone, including more than 130 types of fruits and vegetables. According to Farmers.gov, the ecological service provided by pollinators is valued at \$200 billion each year.

Unfortunately, bee populations have dropped alarmingly across North America, as have the populations of many other pollinator species. They are in serious decline due to exposure to parasites, pesticides, disease, habitat loss and other environmental contaminants. If we all dedicate just a small area to protecting habitats for pollinators, using native plants and sustainable gardening practices, we can help safeguard our common home. Limit pesticide use and consider following these tips to start your own pollinator garden at:

www.fws.gov/story/how-build-pollinator-garden
