Stewardship

Stewardship Prayer

"But when he comes, the Spirit of truth, he will guide you to all truth..." (JOHN 16:13)

Stewardship *a way of life* Stewardship teaches that the best gift we can give someone is to teach them how to pray. If you don't talk and more importantly, listen, to God every day, how else will you know what He is calling you to do? Just as you talk to family and friends every day, get in the habit of talking with God every day. Develop a daily prayer routine. Keep your prayers simple and sincere. This is best done in silence, when you can hear His response.

Question of the Week

LIVING IN THE LIGHT

The Word

Reading for June 12, 2022

John 16: 12-15

Adults:

What is it like to have to wait on the Lord to answer your prayers?

We offer this form of *Lectio Divina* (sacred reading) for pondering Scripture and for faith sharing with family members and other people.

- Listen/ Read (*Lectio*): Ponder God's word and listen for what touches your heart.
- Meditate (*Meditatio*): Attend to what you notice. Allow God's word to resonate in you.
- Speak/Share (*Oratio*): Prayerfully share with Jesus or with the group your thoughts and feelings.
- Rest in God's presence (*Contemplatio*): Notice God's presence and be still, surrounded by God's love.
- Choose to act (*Actio*): Trusting in God's nearness, commit to action rooted in love.

Teens:

What gift of the Holy Spirit are you most in need of today?

Children:

How do you share Jesus' love for you with others?

Parish News

Want to Talk?

Do you want to navigate disagreement in a healthier way?

Are you concerned about political polarization?

Is there a tough topic you want to bring up, but you don't want another argument?

Introducing:

Want to Talk? Communication Tools for Divided Times

Beginning this fall Christ Our Light will be sponsoring an 8 session, small group program on how we can have tough conversations on subjects that matter.

This series has been developed by JustFaith Ministries, an organization based on Catholic social teaching, which will draw on the wisdom of experts in nonviolent communication and civil dialogue. It will help us to deepen our relationships while staying true to our values, providing practical tools for navigating the political polarization of our time as well as other difficult conversations with loved ones and friends.

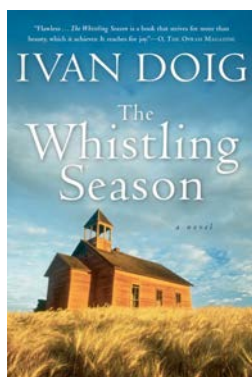

Additional information will be in the bulletin and on the parish website in the weeks to come. Post cards will go out to registered families. Sessions will be held both remotely and in person, during the day and in the evening. Days and times will be decided based on participants' availability. The program is open to everyone, parishioners and non-parishioners.

We believe this will be an invaluable resource to our community and hope you will consider joining. Let's Talk!

Who doesn't like balloons?

We're not talking about Zeppelins or big hot air balloons that can carry you up among the clouds, we're talking about those ordinary everyday balloons that you see at any party or celebration. They're great fun and they enhance any space with brightness and color. They're easily set up and easily taken down. Children love to play with them. Even when they get popped it's no big deal, just find another. Popping balloons can be fun too. So many games to play with balloons. You can also fill balloons with helium and release them to float away into the sky. That's entertaining, beautiful and impressive too. Just good and harmless fun with balloons, right? But wait, what do you do with spent and broken balloons after the party?

Some things to know about balloons:

- Make sure that they are put into the trash; they are not recyclable.
- Animals, birds and fish get sick or choke when they try to eat balloon fragments.
- Small creatures can drown when they get entangled in trailing ribbon or string. It's true of pets, but it's much more of a problem for wild animals; they often die as a result.
- Animals will eat partially inflated balloons, thinking that they're food. A balloon can clog the digestive tract, leading to starvation and likely to eventual death.
- Latex balloons are biodegradable, mylar or foil balloons are not.
- Latex balloons will generally degrade within 6 months but can survive for over 5 years.

Some tips for safeguarding the environment:

- Keep balloons inside if possible.
- If balloons are to go home with children, tie them to their wrist or have an adult carry the balloon.
- Never release a balloon outside. Even with biodegradable balloons, they are a serious risk to wildlife and marine environments.
- When you plan to dispose of the balloons, deflate the balloons before putting them in the garbage.
- Spent balloons should be disposed of in a responsible manner, either in a compost heap where they will have the best conditions in which to biodegrade within a few months, or in landfill waste where they will also break down safely.
- Use natural raffia ribbon because it is compostable, particularly if it has been dyed with natural dyes.
